	Index	9

PUBLIC API

1.1 Converters

```
class compages.Structurer(lookup_handlers: Mapping[Any, Callable[[Structurer, type, Any], Any]] = {},  
                           sequential_handlers: Iterable[SequentialStructureHandler] = [])
```

```
class compages.Unstructurer(lookup_handlers: Mapping[Any, Callable[[Unstructurer, Any, Any], Any]] = {},  
                             sequential_handlers: Iterable[SequentialUnstructureHandler] = [])
```

```
class compages.SequentialStructureHandler
```

```
class compages.SequentialUnstructureHandler
```

CHANGELOG

2.1 0.3.0 (2024-03-15)

2.1.1 Changed

- Renamed “handlers” and “predicate handlers” to “lookup handlers” and “sequential handlers”. ([PR_15](#))

2.1.2 Added

- Skip fields equal to the defaults when unstructuring dataclasses. ([PR_13](#))
- Generator-based deferring to lower level structuring and unstructuring. ([PR_13](#))
- Support for NewType chains. ([PR_15](#))
- `simple_typechecked_unstructure()` decorator. ([PR_17](#))

2.2 0.2.1 (2024-03-05)

2.2.1 Fixed

- The `metadata` type in the `name converter` parameter of `StructureDictIntoDataclass` and `UnstructureDataclassToDict` set to the correct `MappingProxyType`. ([PR_1](#))

2.3 0.2.0 (2024-03-05)

2.3.1 Changed

- Minimum Python version bumped to 3.10.

2.4 0.1.0 (2024-03-04)

Initial version.

INDICES AND TABLES

- `genindex`
- `modindex`
- `search`
